

## ***Restructured FutureGen Workshop***

Welcome & Introduction – Brad Tomer

Director, Office of Major  
Demonstrations

# ***National Energy Technology Laboratory***

- **Only DOE national lab dedicated to fossil energy**
  - Fossil fuels provide 85% of U.S. energy supply
  - 90-year history in fossil energy research
- **One lab, five locations, one management structure**
- **1,200 Federal & support-contractor employees**
- **Research spans fundamental science to technology demonstrations**

***Alaska***

***Oklahoma***

***Oregon***

***Pennsylvania***

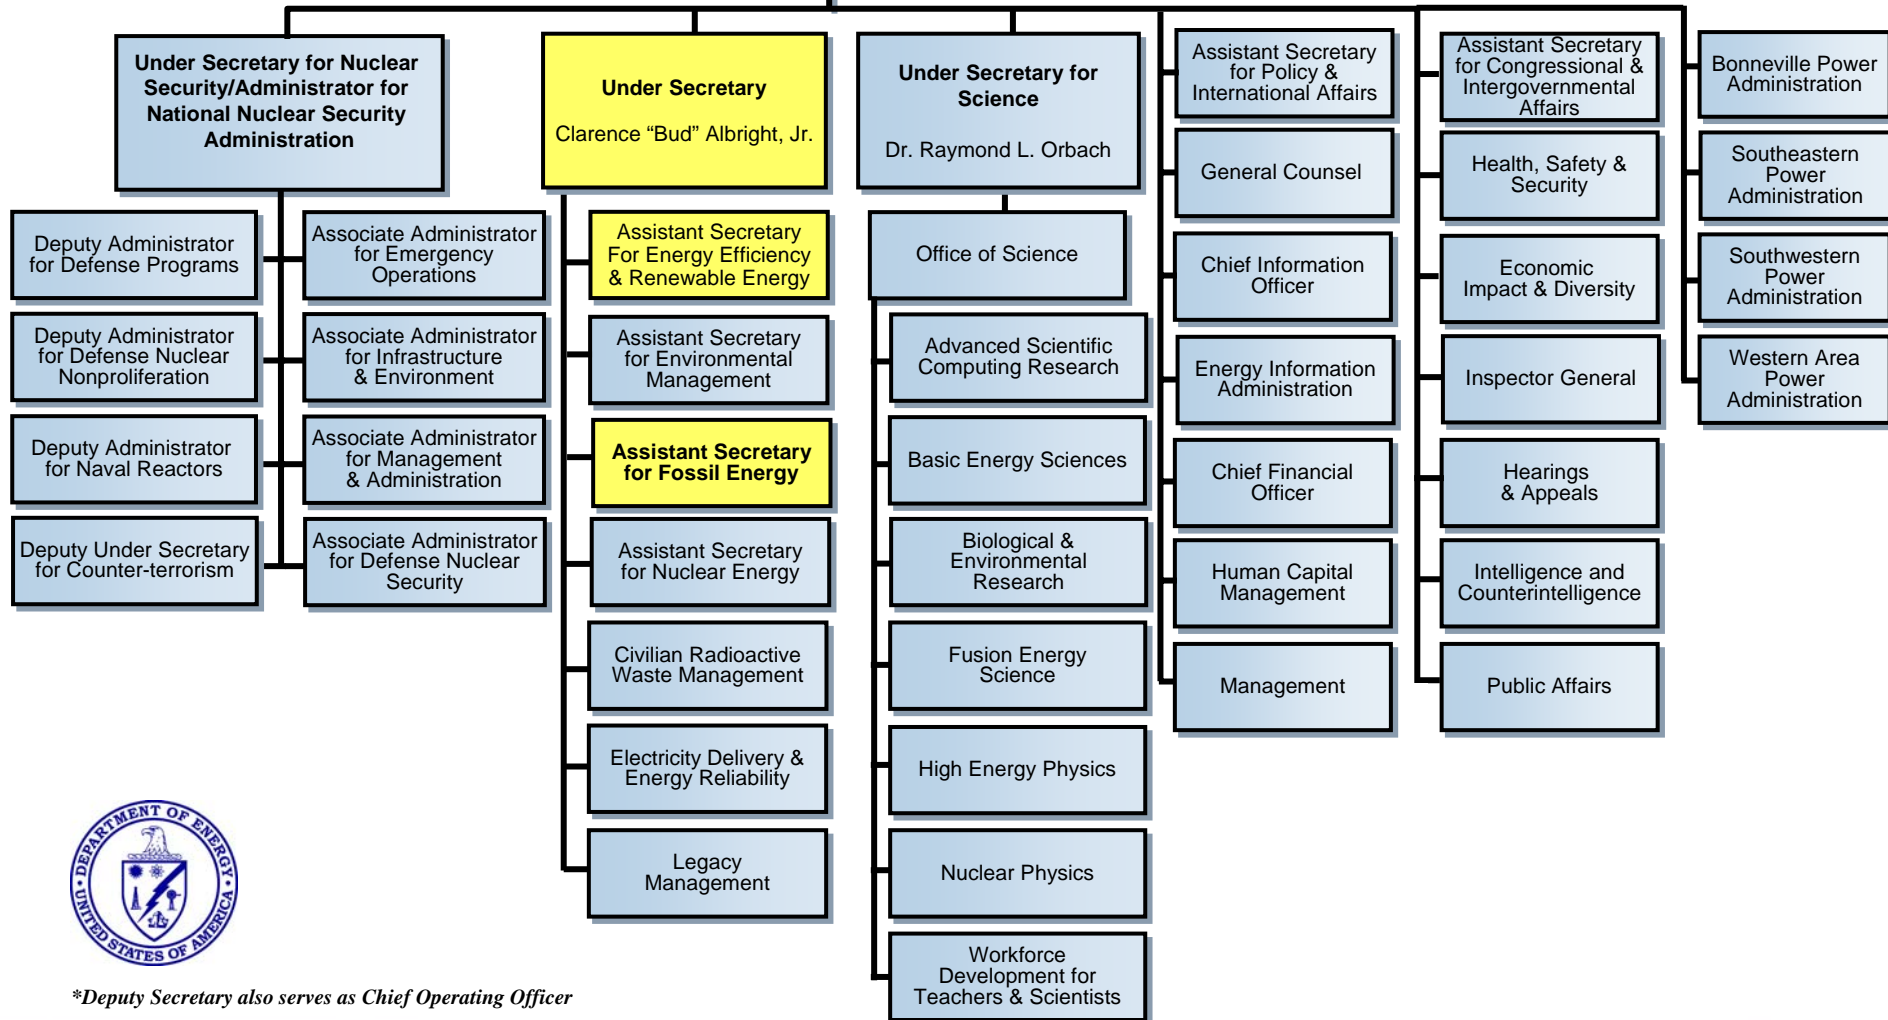

***West Virginia***

# Department of Energy

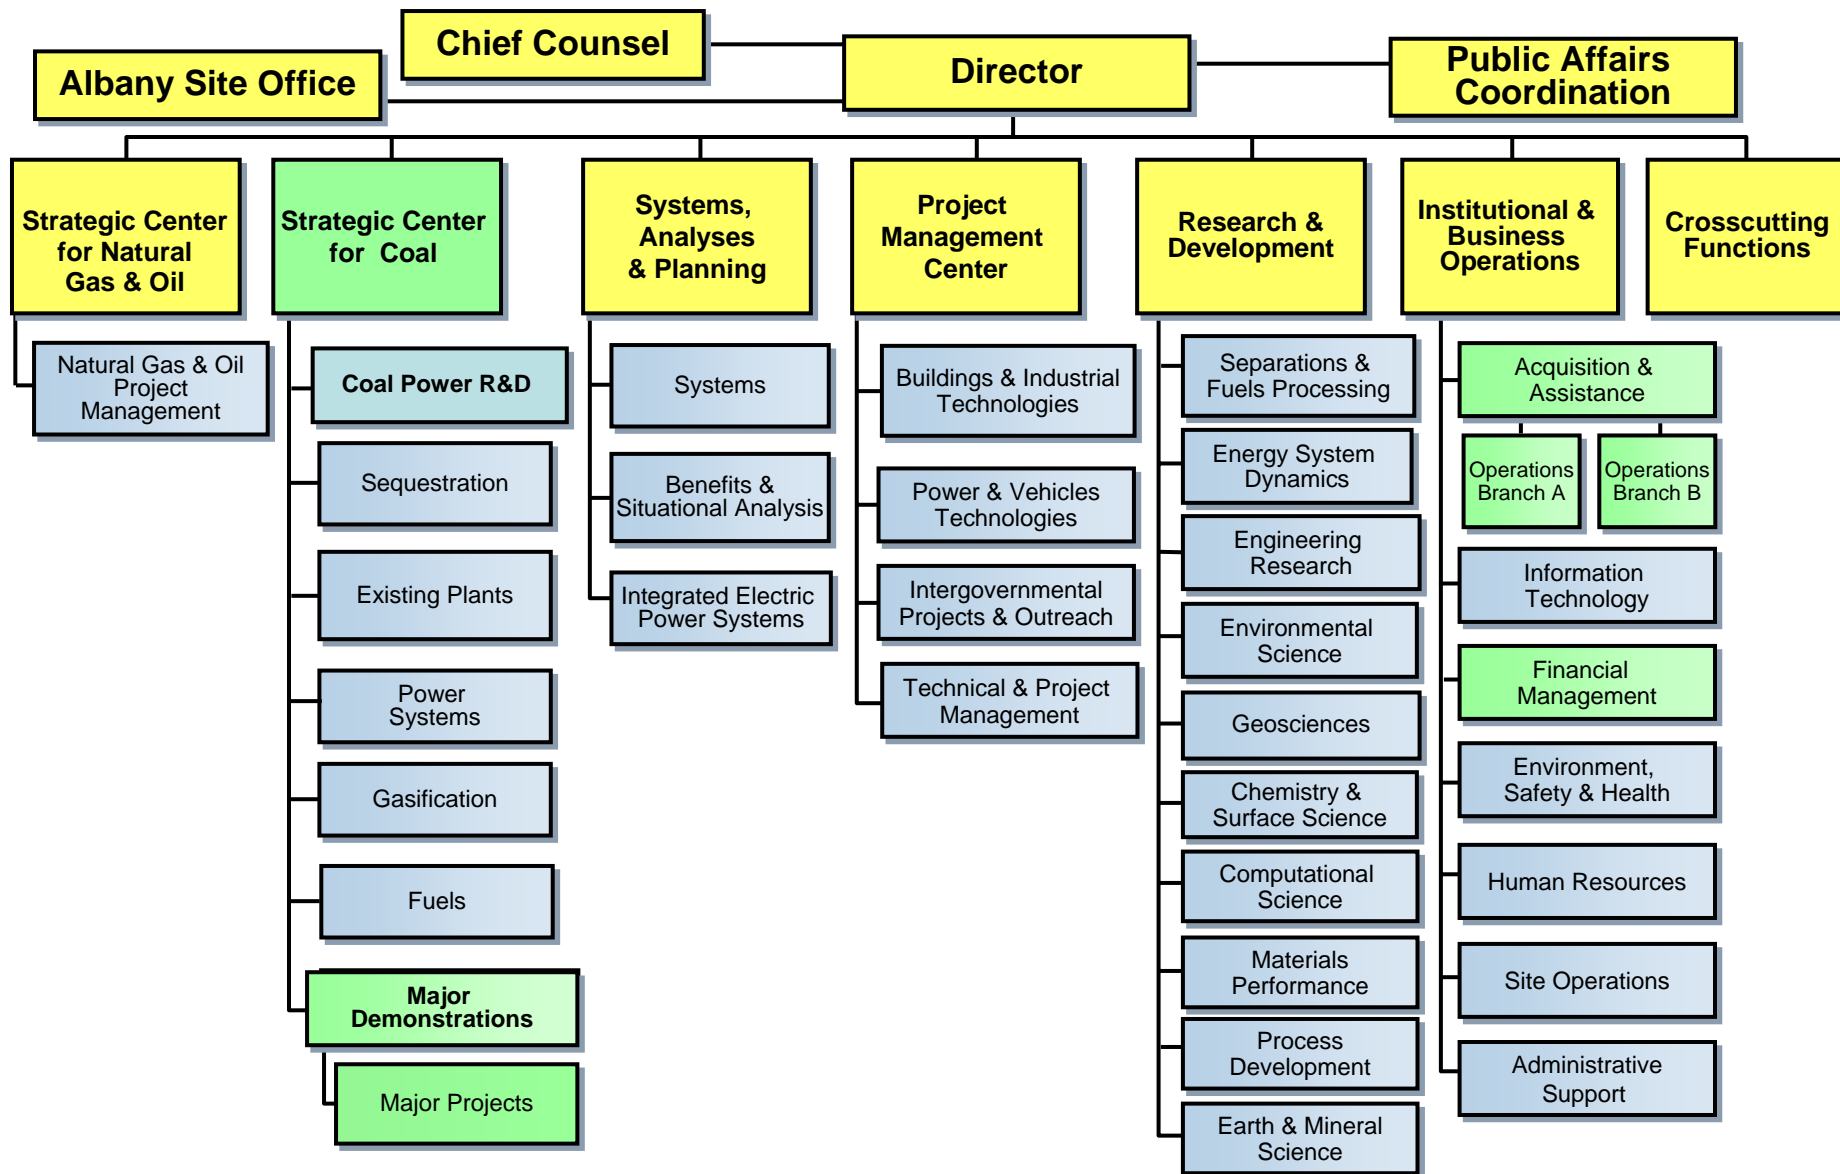

Federal Energy  
Regulatory  
Commission

**Secretary**  
Dr. Samuel Bodman

*\*Deputy Secretary also serves as Chief Operating Officer*

# National Energy Technology Laboratory

# ***NETL Mission***

***Implement research, development, and demonstration programs to resolve the environmental, supply, and reliability constraints of producing and using energy resources***

# ***Accomplishing Our Mission***

- Fund and manage extramural RD&D
- Conduct onsite research
- Support energy policy development

# ***Purpose of Today's Workshop***

- **Present DOE overviews of the requirements of the Funding Opportunity Announcement (FOA):**
  - **Procurement**
  - **Technical**
  - **Environmental and NEPA**
  - **Intellectual Property**
  - **Cost**
- **Provide attendees the opportunity to ask clarifying questions.**

# ***Restructured FutureGen Team***

## **•Technical**

- Thomas Sarkus
- Peter Klemkowsky
- William Gwilliam
- Jeffrey Hoffmann

## **•Procurement**

- Keith Miles
- Brittley Robbins

## **•Legal**

- Thomas Russial

## **•Intellectual Property**

- Lisa Baker

## **•Environmental/NEPA**

- Mark McKoy

## **•Financial/Cost**

- Andrew Ferlic

# ***Agenda***

- |                 |   |
|-----------------|---|
| •8:30-9:00am    | Registration  |

| •11:30am-12noon | Questions & Discussion (continued after lunch, if necessary)                    |
| •12:00-1:00pm   | Lunch (on your own)   |
| •1:00-2:00pm    | Questions & Discussion (continued, if necessary)                                |

# Process

- DOE presentations will be posted on NETL website
- If you prefer, jot down questions on an index card and leave on the head table, otherwise
- Hold verbal questions to the Q&A sessions
  - Step up to the mic, introduce yourself and specify your company
  - Try and be as specific as possible in formulating your question
- DOE will attempt to answer your questions as best we can, but look for the “official responses” on IIPS within a week or so
- DOE will not make any pre-qualification judgments on suitability of a specific project
- Future questions must be submitted through IIPS
- Amendments to the FOA will be issued through IIPS – monitor regularly!
- Finally, lunch (noon – 1pm)
  - Hyatt dining room (would like a “head count” at break), or
  - Walk over to the landside terminal

# Participate!!!

**This is your meeting so “Help us ... help you!”**
